Product Type:	Polyclinic Resin
Color:	White and dries clear
Solids (%):	24 ± 2% by weight 21 ± 2% by volume
Weight/Gallon:	8.67 ± 0.05 lb. (3.93 ± 0.02 kg.)
Viscosity:	3500-3800 CPS
Sizes:	2 ounces 4 ounces 8 ounces
Flamabilidad:	Not Flammable
VOC:	<10 g/L

Notice: The technical data contained herein are true and accurate to the best of our knowledge. Published technical data and instructions are subject to change without prior notice.

S.D.S.: Available upon request.

Surface Preparation:

Use this product in all surfaces that are clean, dry and free of contaminants.

Application Method:

The application mode is very simple. With the direct applicator of the container, apply School Glue to the surfaces, or the material, that you wish to glue, join them applying a little bit of pressure, to acquire the desired adhesion, and wait a few minutes for it to dry. The paste will change from white to transparent when completely dry.

Warning:

Precaution: Do not take Internally. For chemical emergency call ChemTrec 1-800-424-9300 (USA) ó 1-703-527-3887 (International).
