

# HARRIS®

## LM-1 Penetrating Oil

Basic Uses: metal surfaces protection

LUBRICANT

### TECHNICAL DATA

VISCOSITY: Blend, 10 seconds (Ford cup #4)  
FLASH POINT: less than 156 °F  
WEIGHT/GALLON: 6.51 lbs./gal  
SOLIDS (WEIGHT): 50.26%  
SOLIDS (VOLUME): 46.48%

### SIZES

9 ounces can

### FINISH

### COLOR

Amber Clear

### DESCRIPTION

Harris LM1 Liquid Mechanic is penetrating oil; is a multipurpose lubricant. It is formulated to penetrate, lubricate, free rusted parts, displace moisture, inhibit corrosion, eliminate squeaks, and protect metal.

### BASIC USES

LM1 has thousands of uses around the home, on recreational areas and workplaces as a lubricant, penetrant and protective coating. It is safe for use on metals, painted surfaces and most plastics.

### APPLICATION

Saturate area and let soak for several minutes. For best rust protection do not wipe off. Meets government specification MIL-C-23411A, Type 1.

### CAUTION

**EXTREMELY FLAMMABLE.** Keep away from heat, sparks and flames. Vapors may ignite explosively. Do not puncture or incinerate (burn) container. Use only with adequate ventilation. If you must use it in indoors, open windows and doors to ensure a continuous flow of fresh air during application and drying. **KEEP OUT OF REACH OF CHILDREN.**
